

First Quarter 2016: Supplemental Package

(unaudited)

LEGAL NOTICE

This Supplemental Package has been prepared and is presented solely for the purpose of providing readers with certain financial information about Enbridge Inc. (Enbridge or ENB) and its subsidiaries and affiliates to assist with their financial analysis and models, and may not be appropriate for any other purposes. All figures in the Supplemental Package are unaudited. Enbridge's auditors have neither examined nor compiled this Supplemental Package, and have not expressed an opinion or provided any assurance with respect thereto. Figures in the following tables are subject to confirmation by Enbridge in its public disclosure documents prepared in accordance with applicable securities laws and filed with Canadian and U.S. securities regulatory authorities. Figures have been rounded and may not reconcile directly to previously disclosed information.

This Supplemental Package should be reviewed in conjunction with the first quarter 2016 Management's Discussion and Analysis, Financial Statements and News Release which are available as part of the "Enbridge Inc. & Enbridge Income Fund Holdings Inc. First Quarter 2016 Financial Results" event posted on Enbridge's website at: http://www.enbridge.com/investment-center/events

Non-GAAP Measures

This Supplemental Package contains references to adjusted earnings before interest and income taxes (EBIT), adjusted earnings/(loss) and available cash flow from operations (ACFFO). Adjusted EBIT represents EBIT adjusted for unusual, non-recurring or non-operating factors on both a consolidated and segmented basis. Adjusted earnings/(loss) represents earnings or loss attributable to common shareholders adjusted for unusual, non-recurring or non-operating factors included in adjusted EBIT, as well as adjustments for unusual, non-recurring or non-operating factors in respect of interest expense, income taxes and noncontrolling interests (NCI) and redeemable noncontrolling interests on a consolidated basis. These factors are referred to as adjusting items. Adjusting items referred to as changes in unrealized derivative fair value gains and losses are presented net of amounts realized on the settlement of derivative contracts during the applicable period.

ACFFO is defined as cash flow provided by operating activities before changes in operating assets and liabilities (including changes in environmental liabilities) less distributions to noncontrolling interests and redeemable noncontrolling interests, preference share dividends and maintenance capital expenditures, and further adjusted for unusual, non-recurring or non-operating factors.

Management believes the presentation of adjusted EBIT, adjusted earnings/(loss) and ACFFO provide useful information to investors and shareholders as they provide increased transparency and insight into the performance of Enbridge. Management uses adjusted EBIT and adjusted earnings/(loss) to set targets and to assess the performance of Enbridge. Management also uses ACFFO to assess the performance of Enbridge and to set its dividend payout target. Adjusted EBIT, adjusted EBIT for each segment, adjusted earnings/(loss) and ACFFO are not measures that have standardized meaning prescribed by generally accepted accounting principles in the United States of America (U.S. GAAP) and are not U.S. GAAP measures. Therefore, these measures may not be comparable with similar measures presented by other issuers.

Additional information on Enbridge's use of non-GAAP measures can be found in our Management's Discussion and Analysis available on Enbridge's website and www.sedar.com.

Forward Looking Information

This Supplemental Package presentation includes certain forward looking information (FLI) to provide Enbridge shareholders, potential investors and others with information about Enbridge and its subsidiaries and affiliates, including management's assessment of Enbridge and its subsidiaries' future plans and operations, which FLI may not be appropriate for other purposes. FLI is typically identified by words such as "anticipate", "expect", "project", "estimate", "forecast", "plan", "intend", "target", "believe", "likely" and similar words suggesting future outcomes or statements regarding an outlook. All statements other than statements of historical fact may be forward-looking statements.

Although we believe that our FLI is reasonable based on the information available today and processes used to prepare it, such statements are not guarantees of future performance and you are cautioned against placing

undue reliance on FLI. By its nature, FLI involves a variety of assumptions, known and unknown risks and uncertainties and other factors which may cause actual results, levels of activity and achievements to differ materially from those expressed or implied by our FLI. Assumptions regarding the expected supply of and demand for crude oil, natural gas, natural gas liquids and renewable energy, and the prices of these commodities, are material to and underlie all FLI. These factors are relevant to all FLI as they may impact current and future levels of demand for Enbridge's services. Similarly, exchange rates, inflation and interest rates impact the economies and business environments in which Enbridge operates and may impact levels of demand for Enbridge's services and cost of inputs, and are therefore inherent in all FLI. Due to the interdependencies and correlation of these macroeconomic factors, the impact of any one assumption on FLI cannot be determined with certainty, particularly with respect to expected earnings(loss), adjusted earnings/(loss), adjusted cash flow from operations and associated per unit or per share amounts, or estimated future distributions or dividends.

Our FLI is subject to risks and uncertainties pertaining to dividend policy, adjusted earnings, ACFFO, adjusted EBIT, operating performance, regulatory parameters, project approval and support, weather, economic and competitive conditions, changes in tax law and tax rate increases, counterparty risk, exchange rates, interest rates, commodity prices and supply and demand for commodities, including but not limited to those discussed more extensively in our filings with Canadian and US securities regulators. The impact of any one risk, uncertainty or factor on any particular FLI is not determinable with certainty as these are interdependent and our future course of action depends on management's assessment of all information available at the relevant time.

Except to the extent required by law, we assume no obligation to publicly update or revise any FLI, whether as a result of new information, future events or otherwise. All FLI in this Supplemental Package, whether written or oral, attributable to Enbridge or persons acting on Enbridge's behalf, is expressly qualified in its entirety by these cautionary statements.

¹ On July 30, 2015 Enbridge and EEP reached an agreement to forego distributions to Enbridge Energy, Limited Partnership (EELP) for its interests in the Eastern Access and Mainline Expansion projects until the second quarter of 2016. EELP holds partnership interests in assets that are jointly funded by Enbridge and EEP. In return, Enbridge's capital contribution requirements to the Eastern Access and Mainline expansion projects will be netted against its foregone cash distribution.
